

FINANCIAL RISK
GROUP

CONSULTANT I

Description

You will be accountable for helping some of the world's largest organizations in the area of risk management to successfully implement and leverage risk technology. Your skills will aid in the implementation and development of risk products while developing and enhancing relationships with our valued clients.

In this role you will:

- Serve as an active member of the implementation team
- Develop solution components with some supervision from senior consultants
- Have an understanding of system design documents and how the work assigned to you impacts the platform
- Become familiar with the steps in starting up an implementation project
- Be an active participant in the project maturity life cycle
- Demonstrate leadership in providing robust unit test strategies
- Understand and apply SIT/UAT testing strategies
- Communicate effectively with clients to explain difficult business and technical concepts
- Perform client training classes on various subjects including domain and technical topics
- Embrace challenges and learn new skills; be a catalyst for change
- Perform other tasks as assigned

Essential:

- MS degree in the areas of Computer Science, Economics, Mathematics, Engineering, Sciences, or Finance, AND 1-3 years relevant experience OR a BS degree plus a minimum of 3 years relevant experience
- Intermediate understanding of risk management concepts
- Strong written communication, oral communication, and presentation skills
- Excellent problem solving, decision making, and organizational skills
- Ability to travel up to 25 percent of the time as business needs dictate
- Ability to work alone and as part of a team
