

FINANCIAL RISK
GROUP

ETL DATA DEVELOPER 1

Description

As a member of the Financial Risk Group (FRG) development team, you will be part of a team responsible for building and maintaining exciting new solutions for our clients. You will be working with a wide variety of software and technologies and interact with a diverse set of clients who represent multiple industries.

In this role you will:

- Write and support complex and original software code in support of FRG's product offerings
- Perform unit tests on all processes
- Provide resolution to all data issues
- Validate all requirements
- Prepare all ETL processes according to business requirements
- Incorporate all business requirements into all design specifications
- Resolve data questions
- Participate in all aspects of product development including design, development, debugging, implementation, documentation and support
- Assist maintaining functional operation of assigned production systems
- Communicate status with project managers
- Learn to estimate task effort and time frames
- Troubleshoot and solve complex technical problems
- Develop and maintain client relationships
- Communicate effectively with clients to explain difficult business and technical concepts
- Perform other tasks as assigned

Essential:

- MS degree in the areas of Computer Science, Economics, Mathematics, Engineering, Sciences, or Finance, AND 1-3 years relevant experience. OR, a BS degree plus a minimum 3 years relevant experience
- SAS software experience
- SAS DI studio experience
- Pentaho experience
- SQL experience
- UNIX skills
- Data management techniques
- Data quality techniques
- Data analytics reporting
- Experience with data structures and design
- Ability to manage multiple concurrent assignments to meet deadlines
- Strong written communication, oral communication and presentation skills
- Demonstrated trouble shoot and technical problem solving
- Demonstrated software skills using software listed above
- Intermediate understanding of risk management concepts
- Excellent organizational skills
